Accessibility Plan

Date adopted:

June 2025

Next Review date:

June 2026

INTRODUCTION

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which all pupils can participate in the curriculum
- Improve the physical environment of the school to enable pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to all pupils.
- Reynolds Cross School aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

Sources of Information

School has set the priorities for the development of information to support the school's accessibility through:

1. Whole school evaluation
2. Discussion with parents/carers at their child's annual review/ informal conversations/ questionnaires
3. Government agendas re: inclusion/extended school
4. The changing needs of the pupils within school
5. The wider outcomes of the LA and Government initiatives.
6. Discussion with pupils and young people re: views and aspirations

Legislation and Guidance

1. This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).
2. The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.
3. Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.
